

PRESS RELEASE

29 March 2019, Sheffield, United Kingdom

Frequensys Limited becomes part of NSI-MI Technologies

UK RF consultants and equipment suppliers, Frequensys Limited, have become part of NSI-MI Technologies – the global supplier of microwave test and measurement systems. The company will now be known as NSI-MI UK and will continue to be a UK registered company.

The new UK company will be based in Sheffield retaining all Frequensys staff with their unrivalled UK track record and experience in all things RF. NSI-MI UK will continue to offer and support the existing product and brands previously offered by Frequensys Limited, ensuring continuity and support to all existing customers.

NSI-MI UK will also offer all the NSI-MI product ranges backed up by a global presence and the highest quality of service and support. This unrivalled combination of scale and the experience of the UK and European RF industry will provide clients an extremely competitive level of quality and knowledge.

Simon Young, Managing Director of Frequensys Limited, said *“This is a very positive development for Frequensys as we join NSI-MI, the world leading Microwave Test and Measurement Systems provider. We are taking our customer support for EMC and Antenna Measurement Systems to the next level and in expanding NSI-MI UK, we will be providing an even better product and service.”*

John Breyer, NSI-MI CEO, stated *“We are delighted that Frequensys is joining the NSI-MI team. Frequensys is well known for superior customer support, technical excellence and creativity. This combination will allow NSI-MI to serve our UK and European customers even better going forward.”*

All customers can be reassured of the continued attention to detail they received with Frequensys. Same people, same products, same location and even the same phone number. For most suppliers and customers this is simply a name change.
